Unity Center, Mills River NC at 1 pm
Members free • Nonmembers and guests \$10

Brian and Pam Crissey will present information and insights related to the way in which dowsing has led to indisputable statistical proof that crop circles respond to human intention. Their conclusion: we are now in two-way communication with an advanced intelligence that is not us. The game has changed.

Dr. Brian L. Crissey, chapter vice president, will discuss his and Pam's crop circle experiences in England last summer. Their group of 18 asked the circle makers to create a crop circle according to a specific design they had meditated on - a cross, enclosed within a diamond shape. Three formations matching the requirements appeared over the next two nights within a few miles of where they were staying. A statistical analysis of the events proved that they were not random. Here is the stimulus, Satya Alcorn's Elemental, "Potential" and one part of the three-part response, "Life Force":

Brian will also report on extraordinary recent developments from Germany, in which a beautiful formation has led to the creation of a symbol code that is to be used

for world peace, according to information received from the Akashic Records. We will all apply the symbol codes to a world map to help manifest peace in the world.

Pam Meyer Crissey will share her personal experiences being a part of the co-creation of crop circles, emphasizing the intuitive, feeling side of the experience. At one point, while meditating in one of the new crop formations, she experienced a hand descending to present her with a gift, but when she opened her eyes, there was nothing there, in this Ordinary Reality. She will share her understanding of what that gift was, and how it has changed her life.

The Crisseys presented these findings to the June National Convention of the American Society of Dowsters in Vermont last June, and they were warmly received.

Satya Alcorn will give a slideshow presentation about her Spirit-guided beaded artwork, the Elementals. One Elemental, "Potential," travelled to England with Brian and Pam and became the pattern which the group of 18 used for their crop circle meditation. During the creation of the Elementals, Satya was drawn to use one of the Crisseys' crop-circle essences, "Point of Intersection," below. The essence appears to be one factor that influenced the creation of her work. She will discuss this and other aspects of her journey with the Elementals.

Please remember to contribute to the sandwich table at break time if you will be munching. A basket is on the side table and or on the tabel where the food is offered.

News You Can Use

1. The Personal Growth Forum in Hendersonville
topic is : "Dowsing, it ain't just about water".
3rd Thursday of Month - Sept 18th, 2014 TIME:

LOCATION: Unitarian Universalist Fellowship
409 E Patterson Street (corner of Kanuga & East Patterson)
3rd Thursday of Month - Sept 18th, 2014 7:00 - 8:30PM

Guest at PGF will be given Free passes to get in free with the coupon to our Sept. 20th quarterly meeting.

DOWSING: It ain't just about water!

There's no magic involved either. With practice, anyone can do it. You don't need fancy tools or psychic powers. It is a gift we all have. Try your hand at it at September's PGF meeting. Just bring YOUR gift and we'll supply the tools. Experienced dowsers from the Appalachian Chapter of the American Society of Dowsers will be there to give you some tips and help you get started. They'll answer questions and tell you how they use dowsing on a daily personal basis, ie. Where should I plant this? Are these veggies fresh? Is it optimum to buy this 'whatever'? Should I keep this coat or let it go?

There will be plenty of opportunity for participants to get hands-on experience.

2. INTERNATIONAL PEACE DAY 2014 celebration Sept 21st
at several places around Asheville [and simultaneously around the world].

Betty Cram, our Treasurer says The Dowser Booth at the Organic Fest in downtown Asheville last Sunday was a great success. " We who volunteered, would all say. We handed out lots of flyers about the 2015 Conference and also some flyers about the quarterly meeting on the 20th and lots of App Dowser Brochures and some of the ASH brochures as well as the Water for Humanity brochures. Lots of folks stopped by and asked questions etc. A lot of of talking back and forth; some demos on the ways to dowse. Lot of folks who told us they dowsed for many different reasons. "
