Alchemy & Radionics Lecture 2015

Vincent Wrenn

Alchemy is a practice which has been in existence in many parts of the world for over 2,500 years in recorded history (and is probably much older.) It is both a physical and energetic path which involves the making of medicines and vibrational tinctures in both the plant and mineral realm for healing and initiatic purposes.

In this lecture I will give a brief overview on alchemical practice within the plant realm which is referred to as The Lesser Work in the Western Esoteric Tradition. Some of the topics we will cover include a **History of Alchemy** (past and present) the **Three Essentials**, **The Four Elements**, **Qabalah**, and basic **Laboratory practice**.

Radionics came about in the late 1900's and is a subtle energy practice which involves the reading and balancing of subtle energies at a distance. We will go over a brief history, theory and practice of this art form.

Vincent Wrenn is an artist, musician and Reiki Master who has been involved with both Alchemy and Radionics since the mid-80's. He has studied with many teachers including Hans Nintzel, Jean Dubuis, Arthur Fehers, Buckminster Fuller, T Galen Heironymus, Peter Kelly, Tom Bearden, Andrija Puharich and Marcel Vogel.

Vincent has taught Plant Alchemy locally at the Appalachian School of Holistic Herbalism for about 7 years.

Most recently Vincent has been working with sound and visual patterns as related to both Alchemy and Radionics.

President's Note from Andy Euston:

As [new] president of our Chapter, I am honored to be at the conference and really admire the effort that people made to put it together. I'm developing what I think was so important at the conference about essentially redefining in the culture of U.S. maybe a pivotal one.. that has happened there.

Andy Euston

Vice-President's Note from Lee Barnes:

ON the SE Regional Conference

The 2015 American Society of Dowsers Southern Conference was well attended during an extended weekend at the beautiful Kanuga Conference Center near Hendersonville just south of Asheville, NC. With nearly perfect early spring weather, nearly 300 participants including speakers, Vendors, and Service Providers enjoyed about 50 speakers and a dozen Dowsing School classes held concurrent with the main program. Most of the programs and 3 Keynote Speakers were recorded and will soon be available for sale on CD's and DVD's.

While personally busy leading the Dowsing Schools, I did not attend many other talks but greatly enjoyed meeting many folks from nearly a dozen states and as far away as Israel and Italy. There was much social interactions at meals, and evening socials and even some "ecstatic dancing" and music venues from about a dozen talented artists. A possible new Chapter in Maryland is being envisioned.

My memories include good food, great discussions, a wonderful variety of Speakers and Vendors, an inspiring location, and I have much appreciation for the dozens of volunteers who worked for nearly two years to make this a highly successful Conference.

A Good Time was Had by All! Thanks and Happy Trails,
LeeBarnes, Appalachian Chapter Vice President and Coordinator of Conference Dowsing Schools."

News You Can Use:

Richard Cram our outgoing President, and Conference Committee Chair:

Dear CONFERENCE ATTENDEES: The Online Evaluation form for the Southeast Regional 2015 Spring Dowsres Conference will be available in another newsletter very soon. PLEASE be on the lookout for it and fill it out ASAP. Your comments and observations will go a long way to help develop the best next Southern Conference. Thanks so much!

DOWSING: It ain't just about water!
There's no magic involved either. With practice, anyone can do it.
